

## Dog & Cat

Orijen    Innova evo    Innova    The Honest Kitchen    California Natural    Abady    Stella & Chewy's  
 Sojos And more! We also carry an assortment of frozen whole raw real meat products including beef , buffalo, veal and venison marrow bones, ribs knuckles and parts. Whole Chicken frames and necks, turkey necks and duck necks. Our mission is to provide you with the best information and supplies so that you can provide your pets with the best quality of life possible. We carry a wide range of products that are carefully selected and researched by us that we use for our own pets. We do not and will not carry products just because they are popular or will provide us with a better bottom line as unfortunately many pet product retailers and manufacturers do. Our goal is to provide a better life for animals through educating pet owners with real facts, not sales pitches and providing the high quality supplies your pet needs without breaking the bank. We also carry a selection of tried and true, high quality, safe SUPER FUN toys! Our passionate staff is ready to answer any questions you may have about nutrition, training and pet management. Stop by and see what we have to offer! We also have a selection of puppies from local breeders or USDA inspected and registered breeders from around the country. We have a wide selection of purebred and mixed breed pets that we sell for as little as half the cost as many other area pet stores. Our puppies are not kept in barren wire bottom cages behind glass walls but in playpens with cushy bedding where they can play with each other and interact with our customers or in outside runs where they can romp with each other and enjoy the fresh air. We feel that this provides a better quality of life for them and provides important socialization experience with adults, children and other animals at a young age while they wait for someone to take them home. At night all of our puppies are crated individually or with a buddy so that they feel secure at night and when you take them home house training is easier. There is always someone around 24 hours a day, 7 days a week so they are never left truly alone. We feed our puppies and kittens only the highest quality holistic food and supplements because we know how important proper nutrition is for a growing puppy or kitten. What we feed our animals is a decision based on the best interest of the animal and NEVER because a dog food company "pays us off" to use and promote their food as is the case with many pet stores, "breeders" and veterinary clinics. Keep in mind that the decision to bring a pet into your family is a big responsibility. Be prepared for a lecture about nutrition, training and responsible pet ownership because we truly care about all of our animals and we want to make sure that potential owners have all of the information and supplies necessary to provide them with a good life. Our dedicated staff is always here, for the lifetime of your pet to help you with any advice, information, supplies or support you need to ensure that your pet has the best quality of life possible and fits in with your lifestyle. Of course this is true even if you didn't get your pet from us. Our animals are provided with all needed veterinary care and individual attention on a daily basis. We do offer a health guarantee on all of the puppies and kittens we sell, come into the store for more details.

Get 15% off supplies and a free vet exam when you adopt a puppy or kitten from us! Call for current availability or for more information!
